OBJECTIVES

⭕ To obtain a position as a senior software engineer or team leader where skills are valued to drive innovation, optimize processes, and contribute to the overall success and growth of the organization."

⭕ To continuously strive for higher achievement in life and career.

CHARACTERISTICS

- A dedicated and responsible person who is embracing cutting-edge technologies.

- Quick to pick up new skills, willing to learn from others, and not afraid of any pressure or difficulties.

💼 WORK EXPERIENCE

GAMIFY STUDIOS COMPANY LIMITED   **SEP 2022 - NOW**
Software Engineer

Project: Gaming Backend
• Built high-performance, scalable, testable, and maintainable APIs and web services.
• Developed and maintained RESTful APIs for a comprehensive management system handling users, games, players, events, missions, and marketing campaigns.
• Utilized micro-service architecture to build and integrate various sub-systems, including a report module, cron service, and inbox message.
• Collaborated with front-end developers, database administrators, and project managers to deliver exceptional user experiences and meet project requirements.
• Contributed to documentation and knowledge sharing within the technical team.

CMC GLOBAL COMPANY LIMITED   **SEP 2021 - SEP 2022**
Software Engineer

Projects: THK CMMS, Order System & HACCP Report Application
• Estimated project timelines and resources required for completion.
• Provided guidance, conducted code reviews, and ensured code quality.
• Developed robust RESTful APIs using Node.js and NestJS framework, Microsoft SQL Server, Azure Blob Storage, and Google Firebase.
• Utilized Docker to containerize web applications and deployed them to Azure app service, ensuring seamless deployment and scalability.

HPT GROUP VIETNAM CORPORATION   **APR 2020 - AUG 2021**
Software Engineer

Project: Cash Vault Management & HPT SALEEM *(Smart Automatic & Analytic Lending Management)*
• Developed an automated cash vault management system on top of the IBM BPM platform, significantly augmenting operational efficiency.
• Designed and implemented Oracle SQL stored procedures to optimize data retrieval and processing for application functionality.
